

JetTrac Archive™

Use JetForm Central™ to create electronic archives

Features

Works with JetForm Central™ to electronically archive all of your printed output. The JetTrac Archive™ process creates Adobe Acrobat® (.PDF) or HP PCL/TIFF/Postscript files of your output in the background. You choose to archive as you print or even to archive instead of printing.

Can work with your existing Electronic Document Management System. JetTrac Archive outputs to any EDMS that can import an ASCII index file. Also works without an EDMS.

Automatic Indexing. As it runs, JetTrac Archive automatically indexes your archives (even with indexed filenames) for fast and easy finding of your important documents. Up to 30 indexes are supported.

Stores documents one per file. JetTrac Archive automatically generates one output file for each document for quick searching and retrieval.

Archives any JetForm Central document. JetTrac Archive can archive any type of document from JetForm Central such as checks, PO's, invoices, or anything else.

The Company

Pro Technology Automation is an industry leader for developing custom JetForm Central™ solutions. Pro Technology has over six years of experience with hundreds of clients, providing both custom agents and development, consulting, implementation and training for JetForm Central solutions.

Other Products

Pro Technology markets and installs a large variety of its JetTrac™ JetForm Central™ custom agents that give JetForm Central the functionality your business has always needed but lived without until now. Some of the many functions include sorting records, separating documents for different printers, reformatting addresses, reprinting, and more that automate tasks traditionally handled by one or several employees. We can even develop a custom agent specifically for your needs.
