

JetTrac JobCard™

Intelligent job identification for JetForm Central™

Features

Identifies jobs when JetForm Central™ can't. JetTrac JobCard™ is a smart replacement for JFNOJOB.

Uses intelligent identification. JetTrac JobCard uses intelligent algorithms to identify jobs in ways that JetForm Central wasn't designed to be able to do.

Automatically inserts a job card. JetTrac JobCard inserts a job card into the data file and resubmits the job to JetForm Central, allowing JetForm to process the job normally.

Enables special options. JetTrac JobCard can insert special options into the job card to allow for special processing in JetForm Central jobs.

Cross-platform. Runs on any server that supports Java, such as NT, UNIX, and AS/400.

The Company

Pro Technology Automation is an industry leader for developing custom JetForm Central™ solutions. Pro Technology has over six years of experience with hundreds of clients, providing both custom agents and development, consulting, implementation and training for JetForm Central solutions.

Other Products

Pro Technology markets and installs a large variety of its JetTrac™ JetForm Central™ custom agents that give JetForm Central the functionality your business has always needed but lived without until now. Some of the many functions include sorting records, separating documents for different printers, reformatting addresses, reprinting, and more that automate tasks traditionally handled by one or several employees. We can even develop a custom agent specifically for your needs.
