

Dynamically prints packages of forms

Features

Fills several forms with the same data. JetTrac Package™ saves you and your clients time when several forms with similar fields are all needed at once.

Prints many different packages. You can pre-define thousands of different possible combinations of forms.

Print dynamic packages. JetTrac Package allows your host application to dynamically specify the forms that need to be printed.

Controls all print options. JetTrac Package allows you to specify the order of forms, number of copies, duplexing, and collating for each package.

The Company

Pro Technology Automation is an industry leader for developing custom JetForm Central™ solutions. Pro Technology has over six years of experience with hundreds of clients, providing both custom agents and development, consulting, implementation and training for JetForm Central solutions.

Other Products

Pro Technology markets and installs a large variety of its JetTrac™ JetForm Central™ custom agents that give JetForm Central the functionality your business has always needed but lived without until now. Some of the many functions include sorting records, separating documents for different printers, reformatting addresses, reprinting, and more that automate tasks traditionally handled by one or several employees. We can even develop a custom agent specifically for your needs.
