

## **Splits jobs for printer load balancing and speed**

### **Features**

**Distributes a print job to multiple printers.** JetTrac Split™ splits up a field-nominated file to distribute printing among multiple printers

**Allows for three split options.** JetTrac Split can split files by a field range, by a specific number of documents to each printer, or by evenly splitting to a specific number of printers.

**Saves money spent on printers.** Instead of buying a single, high-cost, high-volume printing solution, multiple cheaper printers can be utilized.

**Eases printer auditing.** JetTrac Split generates an audit report of its activity.

**Easy configuration.** Use the windows interface or automatic back-end batch processing.

### **The Company**

Pro Technology Automation is an industry leader for developing custom JetForm Central™ solutions. Pro Technology has over six years of experience with hundreds of clients, providing both custom agents and development, consulting, implementation and training for JetForm Central solutions.

### **Other Products**

Pro Technology markets and installs a large variety of its JetTrac™ JetForm Central™ custom agents that give JetForm Central the functionality your business has always needed but lived without until now. Some of the many functions include sorting records, separating documents for different printers, reformatting addresses, reprinting, and more that automate tasks traditionally handled by one or several employees. We can even develop a custom agent specifically for your needs.

**Got JetForm Central™  
Challenges?  
We've Got Solutions!**
